

Budapest, 29. 4. 1994

E' stato veramente un piacere poter passare questi giorni presso il Gruppo di Ricerca sui Peptidi di Budapest. Ho potuto apprezzare la calda e sincera ospitalita' di tutti i componenti di questo Gruppo. Ricordero sempre con piacere i giorni passati a Budapest.

Un speciale ringraziamento e ricordo e' per Terence, sempre attento a tutte le necessita' e i problemi dei suoi ospiti.

Claudio Vita

20 MAY 1994.

Firstly I guess I should say 'thank you' to Ferenc for arranging my trip to Budapest and to Emma for her patience & understanding in teaching me how to use the CD. At last I have some results - a bit confusing but with a little work may make some sense!! As to Budapest - wow! What a wonderful city - beautiful buildings, people and of course the food! I am sorry to leave such a wonderful place but you never know I might be back some day to annoy you again! Thank you all for your hospitality,

Fiona Macdonald (PhD student)

UNIVERSITY OF NOTTINGHAM

"Hiv" sebunk vaudeseft iveseit

Birtseyi

1991. szeptember 1-én került a csoporthoz  
rögtön a középiskola végzése után.

Zöldfülkű kezdőként ismerkedtem meg a kutató csoport  
munkájával, rengeteget tanultam a szervező kémiai, és  
peptid-szintézisről, egy részét néha ösztönös, néha  
hilátástalan munkájából.

De sokkal több lelkét kaptam emberségből, szeretetből,  
barátságából és igazi emberi kapcsolatokból.

Ezért is szeretném megköszönni Mindenkinek  
azt a sok segítséget, bátorítást, türelmet, amit  
a munkám és itt létem során kaptam, és mindazt  
ammi lehetővé tette a sikeres (és vágyra - vágyott)  
egyetemi felvételiemet.

Az itt töltött három év nagyon sokat jelent számomra,  
remélem ez a kicsi nem önkéntes sebe.

Szeretettel:

Vörös Andi

First I would like to thank Ferenc for his kind invitation in this wonderful place and his warm hospitality, as well as Gabor for the really "professional" guide around the city.

Η ομορφιά της πόλης, τα αρχοντικά κτήρια, ο θεοστό ανοιξιάτικος καιρός και οι υπέροχες ουσυγρικές θεούσεις με έκαναν να περάσω 4 υπέροχες ημέρες. Ελπίζω κάποια ημέρα να ξαναέρθω καθώς επίσης και να έχω την ευκαιρία να ανταποδώσω την φιλοξενία.

Γεράσιμος Τσιγγούλης

Dr. Gerasimos Tsingoulis, Collège de France, Paris.

Η Βουδαπέστη!! Τι να πρωταυμάνει κανείς, τα παζάρια  
και τις εκκλησίες της Βούδα, τα κτήρια και τις οθακείες της  
Πέστης ή τα ξεφύρια και το Δούναβη που ναί μεν δεν  
είναι "Γαλαξίας" αλλά όπως εντυπωσιακός. Όλα πάντως  
δυνατούν για ενδιαφέρουσα, "φουβερή" πόση με έντονη απιδέ-  
σεις γοση μεταβατική περίοδο.

Το δε Πανεπιστήμιο, το Τμήμα Ζημείας, μου δίησε τις  
μαζύτερες εντυώσεις. Το Ινστιτούτο Ανοδορογίας, χαμένο  
βουδ κήρου στις όδες του Δούναβη στο Göd, ένα ομηρικό  
χωριό-προάστειο, τρομερή εμηερία! Και οι άνθρωποι καλο-  
βουάτοι κι εσητερικοί. Πάντα πρόθυμοι...

A great thank to Ferenc and Gabor for their hospitality  
and for arranging my stay here, to Eva who helped me  
with the assays and to all the students from both labs  
who were always very willing to offer me help of any kind.  
I look forward to come back

9-11-95

It's a pleasure for me to write some words for my dear friend Ferenc.

When I was asked by Dr. Andrew (three years ago) to accept some Hungarian students involved in a Tempus project, I couldn't imagine that this experience was to evolve in such an interesting collaboration.

The first reference was the scientific and personal qualities of the students (Katy, Istvan, Zolt, Rikó), and the second one was the fruitful interchange of ideas with their supervisor Dr. Ferenc Hudetz.

I hope that this collaboration will become stronger in the future.

I can not forget also the hospitality of his wife Gabi. Many thanks.

Raouco (Barcelona)  
Spain

17.11.1995

My great thank to prof. Ferenc Hudecz for inviting me to work in the CD-lab of Eötvös Loránd University of Budapest.

It was a real pleasure for me to make the experiments with Dr. Zsuzsa Majer whose knowledge and experience were very useful for me.

Thanks prof. Hudecz and Dr. Majer for their hospitality and arranging my stay here and also for their interest and useful advices during the work ; to the students and technicians from both labs who always were ready to help me in everything.

I hope that our collaboration will be successful and fruitful.

Vesha Toudcheva  
Univ. of Ghent  
Belgium

25 NOV. 1995

Gracias Ferenc. Ha sido realmente un placer pasar unos días en la maravillosa ciudad de Budapest y conocer más de cerca el Grupo de Péptidos de la Universidad Eötvös Loránd.  
Gracias por vuestra sincera hospitalidad.  
Gracias a todos.

Thank you Ferenc for your sincere hospitality. Also, thank you to all your students.  
It has been a great pleasure for me to have visited your Department of Peptide Chemistry at the wonderful city of Budapest as well as to have interchanged some ideas about our future scientific collaboration.  
I hope it will be successful and fruitful.

Isabel Hano  
CSIC Barcelona

7-3-96

As this was my first trip out of my own lab in Gent, I can say that it was quite an experience for me. I'd like to thank prof. Ferenc Hudczek for giving me the possibility to come over and stay here during this short two-week period. A special word of thanks should go to Zsuzsa, who learned me to work with the CD-apparatus. Without her help, this work wouldn't have been possible. But I've also appreciated the friendliness of the people here, who were willing to help with any problem. Hopefully this collaboration will go on in the future.

Als hier ooit nog eens iemand vraagt die Nederlands begrijpt, zullen ook deze woorden niet voor niets zijn geweest. En anders zijn ze maar een speciaal aandenken, een curiosum als bewijs van het feit dat hier ook eens een Vlaaming geweest heeft. Tenslotte kan dit nog een vorm van weerwraak zijn omdat ik zelf van de taal hier geen letter begrijp, nu krijgen ze een beetje van eigen deeg terug. Maar 't was plesant, en bovendien mooi weer - beetje fris, dat wil - zodat ook de andere aspecten van het leven, buiten het werk dan, in volle glorie aan bod konden komen.

Tom Vanheede  
Univ. Gent  
België

21 Juliol 1996

Vull expressar el meu més sincer agrairament a tots els components del grup de Química de pèptids d'aquesta Universitat i en especial al Dr. Ferruc Hudecz, no només per la seva hospitalitat i tot el que he après d'ells però també per la seva amistat e interès constant per donar-me a conèixer tots els secrets i les maravelles de la preciosa ciutat on tenen la sort de viure.

Aquestes cinc setmanes s'han fet realment molt curtes per lo que espero poder tornar aviat per veure els meus nous amics.

Gràcies de tot cor!!

I want to express my great thank to all the components of the Group of Peptide Chemistry in this University and specially to Dr. Ferruc Hudecz, not only for their hospitality and all I have learned of them but for their friendship and constant interest in show me all the secrets and marvels about the beautiful city where they have the luck of living, as well.

These five weeks have been really short time, so I hope I can come back soon to see my new friends.

Thank you by heart!!

Mónica Garís  
CSIC, Barcelona

It gives me great pleasure to write a few lines on  
 my visit to Budapest in connection with the Indo-Hungarian  
 Collaborative Programme between Bose Institute (Calcutta)  
 and E.L. University (Budapest). The visit has been an  
 extremely useful one for exchange of scientific ideas and  
 formulation of ~~se~~ experimental protocols to be pursued.  
 The Chemistry Department of E.L. University at Budapest is  
 ideally located in a new campus and is engaged in research  
 in different areas of Organic, Inorganic & Physical Chemistry.  
 Special mention should be made to the "Peptide Chemistry  
 Group" which is actively engaged in synthesizing peptides  
 of diverse structures with a view to find their potential  
 use in biology and medicine. Some success have  
 already been achieved by this group in their effort.

My sincerest thanks to Ferenc & his colleagues  
 for their kind help & co-operation during my visit. Special  
 thanks are due to the family of Ferenc for their co-operation  
 as well. With best wishes to everybody.  
 Asoke Ghosh, Bose Inst (Calcutta)

1994

septemberben kezdtem meg letérésem a 407-es labor körül. Egy elmismeripari technikum után igazán kellemesen érintett az egyetem légköre.

Itt hiszem az élet egyik legszebb csodája a egyénzet szépséges bonyolultságával s egyben messzeemenő egyenmőségével. Némiképpen mégis a leírhatatlant jelentették a ragyogó emberek.

Ők - néha tudtukon kívül - egyszerűen csak letérésükkel magateget segítettek abban, hogy a nagy játszókör után megismerhettem egy hatalmas és csodálatos piirt igazán jó játékosokat.

Örömmel és szeretettel köszönöm mindannyiukat kedvességükért a bátorságukért, türelmükért ami nélkül én nem léphettem volna tovább a korábban kitöltött egyetem felé. Köszönet.

üdvölettel

Seabó Kristina

Budapest 1996. augusztus 29.

I write at the end of my visit to thank my host Emeric Hudecz for inviting me as a guest of the Hungarian Academy and for the wonderful hospitality.

This has been a week of hectic activities and rewording scientific contacts, involving visits to Pécs and Debrecen as well as talks to colleagues who came to my lecture in Budapest.

The visit to the National Institute of Tuberculosis brought up in the discussion the distinct medical and epidemiological attributes for performing clinical research in Hungary. I am particularly grateful for having had this opportunity of making new contacts.

The discussions with Katalin, the University's PhD student were timely and extremely valuable. This was an excellent opportunity for a review of her ongoing work, in the final stage before writing the thesis and for planning the follow up research strategies. Special thanks from me and from my wife Lita belong to your charming wife Gabi for entertaining us on a memorable occasion at your home.

Juraj Trautman  
MRC Clinical Sciences Centre, London  
Budapest, 30. August, 1996.

I would like to thank Professor Ferenc Hudecz for giving me the opportunity to work in his group for a whole month. Also I would like to thank Katalin Vray for giving me so much help producing cyclic mucl peptides. She has explained things very clearly for me, a non-peptide chemist! I have had a wonderful stay in Budapest and everyone has been so friendly and helpful especially the people in Lab 407.

I know that the 'mucineers' from the Cancer Research Labs, Nottingham University, will continue to collaborate with Prof. Ferenc Hudecz's group for many years to come!

Once again, thank-you all and much success with all your work.

Daniel Spencer (PhD student, Cancer Research Labs  
University of Nottingham)

Future:

These lives should serve as a testimony to what the meeting of two apparently shy, probably inexperienced but like-minded and overall well-meaning human beings can develop into. Since that initial encounter in Platja d'Aro, 1990, a number of things have happened, e.g.,

- i. A very enriching TEMPUS program that provided a scientifically stimulating cooperation among Hungarian, British & Spanish scientists, particularly during the enjoyable summer schools of 1992-1994.
- ii. The extremely positive experience of having talented young Hungarian students at our Barcelona laboratory working with us, falling in love with our graduate students, cooking palacsinta, etc...
- iii. The pleasant experience of visiting Budapest roughly once a year and seeing it develop from a former (Eastern block) capital into a modern, dynamic metropolis, without losing a bit of its nostalgic air, and its Romantic charm.
- iv. The related joy of experiencing Villanyi cabernet, Simlói galuska, bone soup and other delicacies that have broadened my taste and made life reasonably bearable.

- v. The pleasure of welcoming prominent Hungarian scientists at our laboratory: Hillósi, the Medekradelys, etc..
- vi. Last, but by no means least, the delightful opportunity to have you visit with Gabi + András, and to show you a little bit of the Catalonian scenery and culture.

By and large, most of the above wouldn't have been possible had it not been for the meeting of two "twin spirits", perhaps not completely compatible with what is nowadays accepted as "success-minded" attitudes. I am very grateful that you always put human relationships ahead of formal achievement, without neglecting science at all; that you had time to be human and close and not simply "professional". In sum, I am proud of the fact that we were able to become good friends first, and at the same time scientific partners.

Let's keep it like this for a long time!

Juraj Andren

I am extremely wishing Budapest.  
The city is beautiful and enchanted  
me and my wife and son. We look  
forward to coming back, again and  
again to this city. I was impressed  
with our laboratories. They are extremely  
well organized and are comparable to  
the best in the world. The students  
and research scholars are extremely  
knowledgeable and sincere. I would  
like to have a long term academic  
collaboration with your university. I  
trust all of you good luck and hope  
you will keep performing excellently  
in your respective areas of research.  
Once again thank you very much

Sujoy Das Gupta  
18.10.96

Csodálak, évetek holtottem itt 1992  
júliusától 1997 februárig, először mint  
nyári gyakorlatát végző W. éven, majd  
narkológus, és végül mint TMB öntődijsz  
doktorandus hallgató.

Rengeteg tanultam, rengeteg reptőket  
kaptam: úgy maradtam, mint eszement, barátit,  
ami mindig a meggyelő pillanatban  
jött.

Bizom abban, hogy fogunk még  
együtt dolgozni, és roha nem fogom  
elfelejteni, hogy innen indultam.

Hálával és szeretettel fogok mindig  
visszaemlékezni mindenkire.

Bogdán Kata

Budapest, 1997 február 14.

hagyon köszönöm Mindenkinek az itt töltött évet!

Külön köszönettel tartozom Dr. Hudecz Ferencnek,  
ki ismeretlenül is lehetőséget biztosított számomra,  
s kinek figyelve és támogatása allandó támaszt  
jelentett.

Szeretettel és végtelem hálával gondolok  
Dr. Mező Galborra, kit a legnemesebb értelemben  
vélve tekintek a Mesteremnek.

Köszönöm a Kutatócsoport valamennyi tagjának,  
hogy befogadtak, hogy mindig számíthattam segítségük-  
re, türelmükre (melyet gyakran tettem próbára),  
önzetlen barátságukra.

Szeretettel

Mihály Lékó

Bp. 1997. szeptember

Eötvös University & Ferenc Hudecz's Laboratory to visit  
visit করে আসা হয়েছিল। Ferenc মহাশয়কে আমন্ত্রিত করে  
30, Colleague এবং সত্যি সত্যি আন্তর্জাতিক পরিচয়  
করে। অসংখ্য, এবং তার আন্তর্জাতিক পরিচয়  
করে।

স্বাক্ষরিত (স্বাক্ষর)  
স্বাক্ষরিত (স্বাক্ষর)

It was indeed a great pleasure for me to work in the  
Laboratory of Prof. Ferenc Hudecz, E.L. University, under an  
Indo-Hungarian Collaborative Programme. During my stay  
at Budapest, not only I have learned and synthesised  
a number of peptides following "Solid ~~Phase~~ Peptide Synthesis"  
method in the well established laboratory, it is due to him  
that I could come in contact with a large number of Scientists  
in Budapest, Pecs and Szeged. His invitation to deliver a  
lecture in the Bio-organic Chemistry, Hungarian Academy of  
Science at Pecs was a pleasant one. The peptide chemistry group  
at E.L. University is engaged in the synthesis of peptides and  
bioconjugates which are of potential use in Biology and Medicine.

The hospitality rendered by Ferenc and his family and  
cooperation and help received from everyone of his laboratory  
can not be expressed through this short writing. We had  
fruitful discussion and this along with his charming personality  
helped us to become good friends (due to same age !!) and  
Scientific partners and I believe we will be able to  
continue our Scientific co-operation in future days to come.  
Finally, I liked Hungary, its food, people and natural beauty very much.

Parimal C. Sen  
(Bose Institute  
Calcutta India)

May 1, 1998

Hálásan köszönöm, hogy ebben a bemutatkozópost-  
ban dolgozhattam két évig.

Nagyon köszönöm Nagy Jánosnak azt az  
emberfeletti, önzetlen segítséget, tisztelet (erre  
bizony volt is szükség) és odaadó gondoskodást,  
melyet végig irányította munkámat. Mindig  
egy sötétben világitó példaként tiszteltem, melyet  
érdemes követni, és nem szabad kihágnia fejének.  
Köszönöm, hogy mindig meghallgattatok, hogy segítségetek  
kerültem, hogy mint barátok mindig sokszor számíthatok  
rájuk.

És talán egy dalszót, amivel zárhatom soraim:

"Ma sem volt könnyű élni,  
s nem volt könnyű sosem,  
De érdemes volt, s érdemes lesz,  
Hiszem" (Váci Mihály)

Sole scilicet!

Danus Andrea

1998. V. 21.

"S mint ösiedőtől akart,  
Egyre, csordában,  
Nagy művet, költő, bölcs, művész,  
Légy keljess be.  
Példakövet adsz a nemek sötétnek,  
S ez a legfényesebb hídleked."

Thank you, Ferenc for a most wonderful Peptide Symposium in Budapest. The organisation and hard work was very worthwhile for all of us who had the pleasure of attending.

Díszlek Ön fájó ián i chi gyd am nythos  
ferdigedig John a Ann Davies, Abertawe.

Many congratulations on an excellent Symposium

John Jones 4/9/98

So delightful to see you again and your  
cherishing wife in your own capital city. I  
remember with pleasure meeting you in Cambridge  
many years ago, and am sorry that you  
were not to work with us in LMB. However,  
all seems to have worked out well. Warmest  
congratulations on a completely successful  
25th EPS. No disaster - everything seemed to  
work just as you planned it. Well done!!

Warmest regards, from

Bob Slawson 4/9/98

This has been one of the best organized European Peptide Symposium and also one of the most pleasant I have attended. Not only for the programme (scientific and social) but also for the warmth of the organizers and of the Hungarian people in general. Budapest is an unforgettable capital and we wish to come again to enjoy the hospitality of this marvellous country. Thank you very much, Ferenc.  
"Muito obrigado, Ferenc. Espero poder voltar contigo em Portugal em breve!"

Hemini Maia

We had a wonderful time in Budapest.  
Many thanks for your help.  
Buenos Aires

In the heart of Europe, in Budapest  
the peptide world worked at it's best:  
from lecture and posters to wonderful gifts  
It is never abounded with splendid delights!  
Köszönöm, Sándor and Ferenc —  
now have a rest!

Boclauszly Miklós

It was a great pleasure to work with  
prof. Ferenc Sebestyen, with Gyöbor Mező and  
with all other kind and generous scientist:  
Emöke, Kati, Eszter, Lilius, prof. Medzihradsky,  
dr. Mák, György ...

Of course, on the 1. place is dr. Ferenc Hudcz.  
His benevolence and kindness are unique.  
I will never forget it! (Except when I get Nobel Prize. [Joke]).

I was a part of his Research Group for  
Peptide Chemistry for a 3 months, and I am very  
proud because of that.

Köszönöm szépen!

Öröggel hálás vagyok!

With best wishes:

DUBRAVKO  
JELIĆ

Pliva d.d., ZAGREB, CROATIA

Postoji jedna Konfucijeva misao koja glasi  
nekako ovako (ako se dobro sjećam):

"Iko ne zna ni zna da ne zna  
- dijete je, pouči ga.

Iko ne zna i ~~se~~ zna da ne zna  
- budala je, kloni ga se.

Iko zna, a ne zna da zna  
- spava, probudi ga.

Iko zna i zna da zna  
- mudar je, služi ga."

Prof. dr. Ferenc Fudecs je čovjek čiji primjer treba slijediti.  
Puno sam naučio od njega o profesionalnosti u znanosti, te  
o smislu za organizaciju, koja je čisto pola posla. Izumio je  
organizirao i osmislio moj tromjesečni boravak ovdje sa vježbe  
kojeg sam naučio dosta puno o peptidnoj kemiji, a uz to  
sam stekao i puno novih poznanstava. Imala mi velika šteta je,  
kao zahvaljujući njegovoj dobroj volji, omogućio moj boravak  
ovdje i boravak u "Eötvös Loránd" institutu i u "Medvarsokj"!

Dubravska  
Jelčić

Budapest, 21<sup>st</sup> Dec., 1998.

May 20, 1999

Peptides. To get them I had to do precipitation, activation, conjugation, deprotection, purification, cyclization, Liophilization, filtration... To get, to know them I used HPLC, CZE, TLC, CD, FTIR, AAA, MS and to consume them I went to bars, restaurants, buffets, market places and canteens in beautiful city of Budapest.

All of that I learned from wonderful people at LEU and I wish to express sincere gratitude to them.

Thank You Ferenc for organizing everything and making such a warm and friendly atmosphere around me throughout my peptide adventure here. Your suggestions and advises pushed my working abilities to higher level.

Thank You Jozsi for tricks of trade I got from you, thank you Gabor Mezö for making socioconjugates between me and your friends with whom I had pleasant basketball evenings, thank You Gabor Dibo for deep insight in CZE and Japan as well, and thanks to all other scientists and technicians from whom I had honor and pleasure to learn.

I hope that one day I'd have a chance to say to you:

Dobro došli u Hrvatsku

Siniša Stipaničić

PLiva d.d., Croatia

1999. 08. 25.

Kedves Mindenki!

1997 óta dolgozom a kutatócsoportban. Soé mindebben úttörőként voltam jelen. Főként mint biológus. Nehezen emésztettem meg a peptidszintézis rejtelmeit, nagyon köszönöm Gábor kitartó segítségét, mináms hozzáállását. Köszönöm továbbá a csoport valamennyi tagjának, hogy türelmesen segítette a "vegyész látásmód" elsajátításában; a precizitásra való törekvés fontosságára tanítottat meg, ami a biológiában néha valóban eltűnik...

Köszönöm, hogy nem csak a munkámat, hanem egyéni ségemet is szem előtt tartottátok. Szerencsémre tartom, hogy itt tölthettem 4 évet és sokat tanulhattam mind szakmailag, mind emberileg.

Biztosan, nem felejtetek meg rólam, mint ahogy én sem felejték el az itt töltött időt. Azt még találkozzunk, ez nem a végső búcsú!

Sziaztok: Ostertag (Tobisch)

Zsuzsi

Én pedig köszönöm a lehetőséget hogy bepillanthattam egy kutatócsoport belső életébe. Örülök, hogy megismerkedhettem egy ilyen oktatási csoport inspiráló munkahelyi körével. Az oktatásunkat mindig emléket viszem magammal, és magam is lelkesen ajánlanám vissza a csoporttesztámaralónak.

Ostertag Gábor Péter

Csaknem napra pontosan öt évvel  
előbb léptem be először a 404-es labor  
ajtáira, hogy végzős biol-kémés hallgatóként  
belekezdjek a katalógus anyagába, és  
amde általam kevéssé ismert világra.

Az azóta eltelt időben igen sokat  
tanultam és rengeteg tapasztalatra tettem  
szert nemcsak a tudományos katalógussal,  
hanem az emberi viszonyokkal kapcsolatban  
is.

Bizton elújíthatom, hogy ha sikerül leszek  
életműkövetkező szakaszban, annak alapja  
az itt eltöltött öt év lesz. Ezért nagyon  
hálás vagyok a csoport minden tagjának,  
legfőképpen pedig Ferinek, aki nélkül ez a  
közösség nem jöhett volna létre, és  
aki nélkül én sem élhettem volna el semmit.

Nagyon köszönöm, és sosem foglaj  
elfelejtani Benneteket!

Budapest, 1999. szeptember 4.

Nagy, T. D. K.

could hear the National Philharmonic  
Orchestra with Szokolay's A TŰZ MÁRCIUSA,  
that we went into the Matra hills and  
that you showed us part of the history  
of your country. We really appreciate  
this very much and hope that not  
only our scientific collaboration will  
continue but we also will continue  
to meet you and Gobby outside science.

Budapest 27 March 2000

GRONINGEN - THE NETHERLANDS

It was a pleasure to be here and  
to discuss our common interest, the  
gD peptides. By the explanation of  
the members of your group the peptides  
got "alive" for me. Thank you for  
that!

And of course I enormously enjoyed  
"the parade" of Parad glass!

Dear Ferenc,

Finally, we had the opportunity to meet in Budapest. Already quite a few years ago we met in Groningen because of our common interest in Herpes simplex virus peptides. However it was not only science but also other things we could talk about. As a result of that we became good friends whose next possibility to meet each other was in Osaka. I'm sure you always will remember us singing together at Junji's karaoke place and the warm hospitality we received from the Ikoma-family. Now finally we are in Budapest. Sytske and I have had a splendid time here. Again not only science but we appreciate very much that together with you and Gobby we

←

First I would like to thank Prof. Hudecz  
to give me a chance to visit this wonderful  
university.

I'm glad to discuss directly about our  
collaboration. I wish our work will be  
successful.

Budapest is a beautiful city, I think next  
visit will be more long stay in this city.

See you soon at Tokyo or this city.

---

このすばらしい大学へ訪ねる機会を頂いて

Hudecz教授に感謝しています。

共同研究のディスカッションを直接できたこと、うれしく  
思っています。この共同研究が成功を祈り期待しています。

ブダペストはとても美しい街です。次に訪ねる機会が  
あればぜひ長くお泊りしたいと思います。

又、皆様にも東京か、この地で、お泊りかかれますように。

It has been a truly marvellous visit to this delightful country. The scientists are highly proficient, very open to discussion and exchange of ideas, willing to establish co-operative pursuits. The friendliness of the scientists and others has been the hallmark of this visit. I wonder why I waited so long to come to this beautiful city which has a lot of history embodied in its people and monuments. May we build even better bondages through the pursuit of knowledge between the two countries.

K. Szilagyi

Hallo everyone of the hungaria lab in Budapest.  
Sytske and I enjoyed our stay in this city  
and we were glad that we were invited to be here.  
We stayed for three days, visit the old part of  
Buda and also the centre of Pest. We were  
surprised by the very modern and expensive  
shops in that area. We visited the opera, which  
was very beautiful. Our host and hostess  
take care of us in a very pleasant way.  
The friendly, lovely attitude I appreciate  
very much. Is everyone so kind in Hungary?

Also our meeting was very pleasant. I didn't  
expect so much understanding because I was  
afraid of the organic chemistry. But to my  
surprise it was even clear to me.  
Thank you for your hospitality.

Kisses to everyone

Matty

(over from previous page)

I fully subscribe what I said/wrote on Nov. 1996 regarding Hygiene universe (cooking, women, work and of course science). And I can foresee that my opinion will keep improving as the opportunity to visit here repeats.

This COST meeting was not very COST-ly and the COST/benefit ratio is very low.

Wish

I am just starting to plan my next trip to Budapest.  
~~Paris~~ <sup>for other visitors</sup>

Many thanks to Ferenc for having given to me the possibility to be in Budapest, although for a very short time, and to meet new friends. I wish our future projects will be successful.

Francesco Belli

As each time, I am very pleased to be with you and share very interesting information in many aspect of peptide results. I am very thankful for your hospitality and stimulating discussions. I hope we will be able to put, at least some of it, in practice in the years to come.

Again many thanks and looking forward to have the opportunity to welcome you in Brussels.

G. Chenev

Terence, I want to take this opportunity to thank you again for your kind invitation to talk at the university. I had a very enjoyable time discussing your groups research. I also appreciate your hospitality during my visit and also the opportunity to see the wonderful city of Budapest.

Best wishes and I hope to see you soon in North Carolina.

Then Tomer

R.T.P., NC

Moltes gràcies per aquests interessantíssims 3 mesos que he passat al grup de pèptids de Budapest. Deixant de banda tot el que m'heu ensenyat en ciència (molt), m'agradaria donar-vos les gràcies per totes les bones estones que m'heu fet passar: al Ferenc, per la seva enorme amabilitat i hospitalitat; al Gábor, per la seva paciència; al Jordi (György) pel seu "bon rotllo" i els dies a Pécs; a la Kati per la seva simplicitat i bon castellà; a la Krisztina per la seva inagotable alegria; a la Gitta per la seva inestimable ajuda; a la Regina, la Nikolett, la Marika, la Panni, la Ica, etc.....

→ Sapigüeu que teniu una casa a Barcelona, en estigüu rivint, ja ho aueglarem.

I want you to understand this part, it is very important. You are all invited to Barcelona!

Köszönöm szépen a Kutatócsoport minden tagjának a segítségét és kedvességét.

Fins aviat! See you soon! Sziasztok!

Május 2001

Marh' Pericay

Aquesta ciutat m'ha sorprès des del primer dia: el temps, la gent, el menjar, ... Budapest en si és fantàstica, inacabable. M'he deixat coses per fer i per veure, ... jo crec que ha estat conscienciantment, així hinc una bona excusa per tornar-hi!

Podria dir moltes coses, però tot s'acabaria resumint en un molt sincer agraïment.

Moltes gràcies per tot!!

First of all I must say that it's a honour to write these lines in this book because I've understood so ludy I've been to work with the Research Group of Peptides at the Eötvös Loránd University.

Thanks Ferenc for the chance to work with you and the people of your group. (The night in the Zeneakadémia was the best one in Budapest).

Thanks Gábor for your help and time. I've learnt a lot these days.

And thanks the rest of the group for your most sincere kindness.

"Sal Augusta, per Augusta"  
(reach the difficulties by difficult ways)

This is what an ancient latin proverb says. I hope that these ways will be easier with your help of these last days.

Köszönöm szépen!!!

Thank you for all!!!

Budapest, 2002. 11. 5

Óscar Pons

"Li te-ai dus dulce minune,  
Li-a murit iubirea noastra,  
Totul este trist in lume.

Floare albastră, floare albastră..."

(Floare albastră - Mihai Eminescu)

Memories... of the past.

I'm very lucky and happy because I was and I am here. But writing in this book means that I have to go and to say you "Thank you very much and Good bye!"

Right! Thank you very much to everybody. It's strange I can't find the words to express my feelings.

I enjoyed a lot that time in Budapest, not only working in the lab, but also going out. I've learned many new things about peptides (from Gabor and Kati) and this is very important for my work.

Thanks to Prof. Ferenc Hudetz for having given to me the possibility to work here and to meet the people of this group.

Thanks to Panni, Emöke, Gitta, Zoli for the time you spent with me and I've never felt alone.

I hope it would be possible to come back. I'm very grateful to all of you.

See you soon!

Cellular Transport Strategies for Targeting of  
Epitopes, Drugs and Reporter Molecules

Budapest, 6-9 March 2003

Interesting meeting, nice colleagues, nice weather ...

Many thanks, Köszönöm  
Michael [Signature]

It's a very interesting meeting, I would like <sup>to thank</sup> the committee to give me  
the opportunity to take part in this conference.

Andrea Haegler

It is one of the most perfectly organised meetings I have ever been

David [Signature]

Great organisation, interesting science. Bit heavy on  
the timetable. Hard work

[Signature]

A wonderful and inspiring meeting. Thanks for the perfect  
organisation and the great conference venue. Budapest is  
definitely worth the travel.

[Signature]

It was a great pleasure to visit your city, your hospitality  
was really nice. The organisation of the workshop was perfect  
So many thanks for everybody who actively participated  
L. CHALOIN

I would like to thank the organizers for the perfect organization (except for the fact that the conference bags could not be carried above the shoulder) and giving me a travel grant. Also, I enjoyed (perhaps too much) of the local food here (Gulyás and so). Budapest is a very pretty and large city. I got lost once while getting out of the tram too late and had no idea what I was. I liked it that I could not understand anything written on the signs and plans so I oriented for the Duna. You have a great language in Hungary! So, many greetings also to all of the people with the yellow T-shirts. Let us hope for world peace.

Karste Köhler

Interessig meeting + excellent organization.

Köszönet!

Uwe Sauer, Berlin  
Germany

Excellent meeting

Great sessions

and I heavily can remember being taken care of

in such a perfect manner!

Thanks a lot to the organizers

and his wonderful team

of young encouraged scientists!

Thank you - D. H. L.

Excellent meeting, excellent organization ...

It will be a pleasure to come back in this beautiful and welcoming country.  
Thanks a lot for everything. John Depelle

This is one of the most nicely organized meetings I have ever attended, and the additional felicity of having a focused set of interdisciplinary approaches has made it even more enjoyable. Thank you very much!

Satyajit Nath  
INDIA

It is always very enjoyable to return to Budapest the wonderful capital of Hungary. This time it was particularly exciting as this high-quality Workshop was a unique occasion to meet with many colleagues in the targeting field. Thank you, Ferenc, and all your collaborators for the excellent organization of the meeting and the very friendly and warm-hearted atmosphere.

Alex Fleck, Beck

This was one of the most well-organized conferences. The ~~organizing committee~~ organizers were all very friendly and very polite.

Thank you all for ~~the~~ your kindness and hospitality.

Dinos Mikelis

It is a pleasure being here. Budapest is a very beautiful city and the congress was excellent. The organizing committee did a fine job (everybody is friendly) and all the lectures were of great interest. Thank you for permitting me to come with a travel grant.

P.S. We are looking forward to seeing you in Greece for *εργασιακό* *work*? (I thank you very much).

*Stypan*

Very good meeting well organized and friendly: good for science

~~V. H. S.~~

Thanks very much for a most enjoyable conference and excellent hospitality

Best wishes  
*Matejoub* Cambridge UK 9/3/03

Prof. Stenchez, you and your staff many thanks for organizing this excellent meeting. The contributions were interesting and stimulating and the finance excellent.

03.11.20

I spent very very nice two weeks in the company of very friendly people from the Research Group of Peptide Chemistry thank you very much.

Urszula Konicka (ITD, PAN)

Thur. 8 July, 2004

To: Prof. Dr. Ferenc Hudecz,

I am delighted to visit you, to meet your students and colleagues and to discuss about science. Hope we can form a joint collaboration on peptide science to understand a new class of peptide surfactants/detergents.

Budapest is a wonderful city, full of life, culture and music as well as surprisingly complicated history. I am so surprised to see similar behaviors of people between Hungary + China even we have no similar background. Hope I will be back here again + again.

Shuguang Zhi

To Rector Dr. Ferenc Hudecz, 15 June 2010

I am truly delighted that I am back to Budapest again! This time, we even have more discussion about peptide science with you and your colleagues. We will sincerely start scientific collaborations to study several fundamental problems in peptide science: 1) why some short peptides form very stable  $\alpha$ -helices, 2) why some peptides convert  $\beta$ -sheets to  $\alpha$ -helix, 3) why small peptides self-assemble into superstable structures.

Science + technology are the twin engines of economic development. Hope our collaboration will stimulate economic development as well. Shuguang Zhi

Dear Prof. Hudecz,

I sincerely appreciate you for your kind invitation to Budapest where is very historical and beautiful city. Your all arrangements are perfect. This time, you give an important key to communicate between Hungarian and Japanese research groups. Thank you again for your kind hospitality and nice personality.

My best wishes,

*M. Sugita*

Kyoto University, Japan

歴史ある、また美しい東欧の都ブダペストを訪れる機会を  
いただいた Hudecz 教授に深く感謝致します。可ばらしく  
行き届いた配慮に大変嬉しく感じています。

ハンガリーと日本の2国間の共同研究が大きく進む  
ことを期待しています。

暖かい心遣りと可ばらしい人間性に触れられたことに  
改めて感謝致します。

Dear Ferenc

With delightment and pleasure I am enjoying  
one more among so many occasions of visiting  
your laboratory, as a heart and key of our  
scientific collaboration, as well as a key friendship  
place between our laboratories. Needless to  
say how much I enjoy every time the  
surroundings in every respect, and also the city  
of Interpest!

Yours

Michael Pitybylki  
University of Konstanz

Dear Ferenc,

September 22, 2015

It was my first visit to your country and to your beautiful city, Budapest. I really enjoyed my first visit owing to your kind hospitality and your perfect arrangements. The Hungarian cuisines I took everyday were quite good to my taste. It was also my great pleasure to have a chance to see your wife and with the member of your research group. I hope our collaboration project will reach fruitful results and last so long.

I am looking forwards to seeing you soon in Japan or Budapest.

Finally, I appreciate you again for your kind hospitality throughout my staying with you.

Yasushi Arano  
Graduate School of Pharm. Sci.  
Chiba University,

今回が私にとって初めてのハンガリー、ブダペストでした。  
おぼろしいおもてなしで完璧な計画のおかげで、初めてのブダペストを  
たくさん楽しく過ごすことができました。毎日のハンガリー料理も私の好みに  
合っていました。また奥様や研究グループの皆さんにお会いして、お話し  
できました。たくさん楽しかったです。

私たちの共同研究が実りのある結果を生み、また末長く続けられること  
を期待しています。

日本あるいはブダペストにお会いできることを楽しみにしています。

最後に、滞在中に賜りましたご厚情に深謝申し上げます。

6, Julio 2006

A todos

Muchas gracias por vuestra amabilidad. Es genial ser recibido en todo momento con una sonrisa!

That is my first visit to your city, it is really beautiful! I hope it is not the last one.

I want to thank everybody the kindness and the interest. It has been a good experience.

Beatriz G. de la Torre  
Universitat Pompeu Fabra  
BCN (Spain)

Dear colleagues,

We paid a visit to "Eötvös Lorand" University of Budapest within a Hungarian-Romanian Mobility Grant on peptide research in which the Hudocz's group is best experienced. We have learned much from our colleagues and friends because we worked little in peptide synthesis having also less instruments. In addition, what we took as information from Ferenc, Gitta and the others in the group could be a developing way for our group in Jan. For all of what we received we express our deep gratitude. Also, we are eager to meet Gabos, Kata and other members of Hudocz's group on their returning to Budapest.

Visiting Budapest was a quite unique experience, the people here is highly civilized, polite, kind and attentive. Also, the Budapest inhabitants are hard working people as we saw them working even on Sunday. Thank you for the kind hospitality and attention, Budapest!

We hope our bilateral project will be a success and will involve further collaborations in the future. We are looking forward to see you in Jan as soon as possible. July 24, 2006 Prof. Gabi Drochiody from A.T. Caza Iasi Univ.

July 25, 2006

On visiting "Eötvös Loránd" University of Budapest within a bilateral mobility Grant between Prof. Hudecz's group and Prof. Drochiu's group, I enjoyed meeting the scientists involved in peptide synthesis from whom I have learnt much.

I really enjoyed this visit owing to the kind hospitality and perfect arrangement of my hosts. Also, I appreciated so much the beautiful city of Budapest.

Finally, I express my gratitude for the hospitality and I am looking forward to seeing the Hudecz's group in Iasi, Romania.

Manuela Mardariu,  
member of the Drochiu's group  
Iasi, Romania

Dear professor Hudecz and his family; Sept. 15, 2006

It is a great pleasure to express my sincere thanks to professor Hudecz, who is now a rector of the Etöves L. University, but kindly interrupted his busy work ~~to~~ for me to organize a lecture. I and Tomoko also wish to thank Mrs Hudecz, Mr István Hudecz, Ms. Andrea Hudecz and the two sons of professor Hudecz for their kind hospitality during my stay in Budapest.

It was my surprise to find that professor Hudecz and I share the same experience of NCA polymerization as the start point of synthetic polymer chemistry. And, at present, we also share the same scientific direction towards medicine-oriented chemical biology. During my short visit to Hudecz laboratory, I understood with confidence that he and his group take a worldwide leadership to promote the above scientific direction. I hope if I could cooperate with him and his group in some ~~of~~ points near future.

I am looking forward to meeting professor Hudecz again at the Yokohama meeting.

Masahiko Sasaki, Okayama University, Japan

フーテス教授およびご家族の皆様

2006.9.15

フーテス教授には学長としての大変お忙しい中、私の講演のために時間を割いていただきました。心から感謝申し上げます。またフーテス夫人、イシュバンフーテス氏、アンリアフーテス嬢、および息子さんには大変温かいご招待をいただきました。厚く感謝申し上げます。フーテス教授および研究室の皆様には、今後世界のりそとほの活躍を心から期待いたします。岡山大学 実戸昌彦

Dear professor Hudecz

3<sup>rd</sup> November 2006

I would like to thank you, prof. Sili-Vargha and other members of the Peptide Chemistry Research group for ~~their~~ hospitality and your helpful advices, which made my 10-month-long stay in Budapest enjoyable and also very fruitful by producing excellent results. I am looking forward for future cooperation.

Janez Ilaš  
University of Ljubljana  
Faculty of Pharmacy  
Department of Pharmaceutical Chemis

November 17<sup>th</sup>, 2006

Thank you very much to Ferenc and to the members of his group for welcoming us so nicely in Budapest, and particularly Anna for excellent organization and to Anne Marie for professional driving(!).

Our collaboration is very exciting for us and I am sure that the actual complementarity of our expertise will lead us to the success.

It was a pleasure to welcome you in Toulouse some months ago, and it is a pleasure to be there in the magnificent City of Budapest.

Through our successive meetings, we are becoming friends and that is surely as important as our future common Goals.

Very friendly yours

September 19, 2008

Dear Prof. Hudecz and his group members

I want to express my thanks to Professor Hudecz who arrang my visit to "Eötvös Lorand" University via Erasmus programme. He and his group members arranged all the facilities (accommodation, necessary needs, lecture, meeting) before my arrival. I also thanks his group Member especially Prof. Mező and Dr. Banoczi make my visit happier and easier. I also have some meeting with member of the faculty namely Prof. Hollósi, Prof. Major, Prof. Sámponi, and Prof. Novák. I would like to thanks to them for giving their valuable time to me. I hope to keep in touch with this University in future and to meet all people again. If I get another chance to visit this historical city (Budapest) i never miss.

Finally I look forward to seeing all cooperation going trough in future and see Prof. Hudecz in our University. It will be great pleasure for us to wellcome him.

Thanks for everything

Mehmet Poyraz

Prof Hudecz ve onun grup üyelerine ve fakülte öğretim elemanlarına gösterdikleri ilgi ve misafirperverlik için çok teşekkür ederim.
